

Honourable Premier Horgan,

Canadian citizens of British Columbia want an immediate end to all closures, orders, mandates and vaccine passports. Other Provinces of Canada have cancelled closures, mandates, orders and vaccine passports and it is time for British Columbia to move forward as well.

Canada was built on the understanding of human rights and fundamental rights. These are God given rights and can not be taken away. The British system, adopted by Canada, having taken centuries to develop and is the standard for our entire legal system. The Canadian Bill of Rights enshrined these rights and were given Royal Assent long ago. This common law is the basis of our entire western civilization and legal system. Without it we would not have a functioning democratic and free society.

It is up to each individual Canadian to decide what we place on our body and what we take into our body, and no acting authority can dictate otherwise. That is a sovereign choice of each individual and must be respected.

A mask and a vaccine are both medical treatments. The mask, being Personal Protective Equipment is legally termed as a medical device, therefore, a medical treatment. The vaccine has always been a choice in Canada due to our Bill of Rights. Even in a emergency state the government has no right to force or coerce nor impose any medical treatment. Canadians have an unalienable right to choose or refuse medical treatments and to travel freely. These unlawful mandates, orders and passports have caused irreputable harm to millions of Canadian including suicides, vaccine injuries, vaccine deaths, mental health issues, business closures, lost income etc.

The Canadian Medical Act – Code of Ethics clearly states that an individual has a right to chose medical intervention or to refuse medical treatments. This is a fundamental God given right. The mask and vaccine have been proven to not be effective in protecting nor reducing transmission. It is time to learn to live with the virus and stop the erosion of Canadian's rights. It is time to end this discriminatory practice that is dividing our country, into have and have not's and creating a new avenue of prejudice.

The orders, mandates and vaccine passport have no legal basis to exist in a free and just democratic country as Canada. Therefore, Canadians are respectfully demanding that all mandates, orders and vaccine passports be rescinded in Canada. The Freedom Convoy is not a fringe minority of racist misogynistic extremists. The Freedom Convoy represents all Canadians who clearly observe the politicalization of medical procedures by Justin Trudeau and oppose this attack on our Constitution, Charter and Bill of Rights.

The Freedom Convoy and the citizens assembled in Canada are peaceful protests comprised of Canadian citizens exercising their right to protest unlawful legislation. Trudeau's claim the Freedom Convoy constitutes a national emergency that requires national effort is unacceptable. Canadians have the right to speak up and oppose any law which is against our Constitution, Charter and Bill of Rights. Canadians do not want Canada to descend into martial law, or some sort of police state. Foreign interests such as The World Economic Forum run by Klaus Schwab have an interest in destroying Canadians sovereign rights as stated in their documents: Agenda2030, Agenda2050 and others. Such foreign agendas is not what Canadians have consented to nor approved of. Any members in our democratic government who are members of foreign corporate entities pushing private agendas are engaged in a conflict of interest and they should be respectfully removed from our government. Any agenda that does not uphold the Canadian Bill of Rights is not the vision for the future Canadians seek.

BC citizens are asking Premier Horgan to not support the Emergency Act Trudeau is calling for. Instead, BC citizens would like to have an independent inquiry to study the legitimacy of these covid mandates. Lastly, Brian Pectford suggested, that the mandates, orders, and vaccine passport be referred to the Supreme Court of Canada to determine their Constitutionality.
